PROFESSIONAL PROFILE

Supply Chain and Logistics professional with an MBA in Supply Chain Management, three years of direct team management and UK shift supervision experience across Amazon UK, Sainsbury's and CN Foods. Relocated from India to the UK in 2023 to complete the MBA and has since rebuilt operational and people-leadership experience within UK fulfilment and retail operations. Managed a small sales and service team within a transportation business, owning client escalations, service delivery and delay resolution while growing revenue by 30% and retaining 95% of 50+ accounts. In UK operations, covered formal shift lead responsibilities for 10+ operatives, trained and onboarded new starters, and delivered 100% picking accuracy across 3,900+ units. Combines people leadership with strong operational fundamentals in inventory control, WMS/RF systems, KPI reporting and continuous improvement. Targeting Team Leader, Shift Supervisor, Inventory Supervisor, Logistics Team Leader and Assistant Operations Manager roles across the UK.

LEADERSHIP & PERFORMANCE HIGHLIGHTS

- Directly managed a small team for three years within transportation and service operations, setting priorities, allocating workload and holding accountability for service delivery and client retention.
- Covered formal shift lead and supervisor responsibilities for **10+** warehouse operatives during peak periods, allocating tasks, resolving operational issues and maintaining productivity and quality standards.
- Trained and onboarded new starters across three UK operations, coaching scanning accuracy, warehouse processes, safety standards and quality routines.
- Acted as escalation point for operational problems, delivery delays and service failures, coordinating resolutions across drivers, clients and internal teams.
- Increased revenue by **30%**, retained **95%** of **50+** client accounts and supported expansion into 3 new markets while leading the team.
- Achieved **100%** picking accuracy across **3,900+** units at Amazon UK and improved stock accuracy by **15%** at Sainsbury's.
- Reduced total costs by **10%** and improved operational efficiency by **15%** in The Fresh Connection MBA simulation through KPI analysis and supply chain decision-making.

Operations & Improvement: Continuous Process Improvement | 5S Methodology | Quality Control | Health & Safety Compliance | Workflow Coordination | SLA Delivery | Root Cause Problem Solving

PROFESSIONAL EXPERIENCE

Warehouse Operative | Amazon UK Services Ltd | Full-time | Dunfermline, Scotland

Oct 2025 – Present

- Support Process Assistants and Area Managers with workflow coordination, issue escalation, workstation organisation and 5S routines, deputising on process problems during high-volume shifts.
- Coach and support team members on scanning accuracy, warehouse processes, safety standards and quality control routines to maintain consistent operational performance.
- Monitor productivity, quality, accuracy and UPH metrics to support KPI tracking, SLA delivery and performance reporting.
- Achieved 100% picking accuracy across 3,900+ units, strengthening inventory accuracy, fulfilment quality and operational reliability.
- Operate WMS and RF scanning systems within high-volume fulfilment, maintaining accurate inventory tracking, order processing and system data integrity.

Trading Assistant – Frontline Customer Service Operations | Sainsbury's | London, UK

Dec 2023 – Oct 2025

- Onboarded and supported new colleagues, and assisted with shift coordination and daily task allocation across the department.
- Improved stock accuracy by 15% through structured stock control, replenishment routines, product availability checks and inventory reporting.
- Acted as first point of contact for daily operational issues and customer escalations, protecting service standards during peak trading periods.
- Managed inventory control, replenishment, stock movement, merchandising and compliance checks in a fast-paced retail operation.
- Maintained health, safety, quality and customer service standards under sustained operational pressure.

Warehouse Operations Associate with Shift lead responsibilities | CN Foods | London, UK

Nov 2024 – Feb 2025

- Covered formal shift lead and supervisor duties during peak periods, directing 10+ operatives, allocating tasks across pick, pack and dispatch, and maintaining productivity and quality targets.
- Trained and onboarded new starters on WMS, RF scanning, FIFO stock rotation, quality checks and safety procedures, reducing ramp-up time and picking errors.
- Acted as the senior operative other team members referred to for process questions, exception handling and on-shift problem resolution.
- Applied FIFO stock rotation, accurate stock handling and quality checks to reduce errors and maintain inventory control standards.
- Maintained safe and organised warehouse areas, supporting 5S, health and safety compliance, order accuracy and timely dispatch.

Business Development Manager | Shekhawati Sales & Transportation | India

Aug 2020 – Aug 2023 | Direct team management responsibility

- Directly managed a small sales and service team of 4 across a three-year period, setting daily priorities, allocating accounts, reviewing performance and developing team members.
- Owned a portfolio of 50+ client accounts with a 95% retention rate, acting as escalation point for service issues, delivery disputes and delay resolution.
- Stepped in on transport operations issues including delivery delays, vehicle availability constraints and service failures, coordinating between drivers, dispatch and clients to restore service.
- Increased revenue by 30% through client relationship management, new business development and expansion into 3 new markets.
- Prepared operational reports, client records and performance updates to support management decisions and process improvement.

SUPPLY CHAIN PROJECT

The Fresh Connection Supply Chain Simulation | University of East London | London, UK

MBA Project

- Led decision-making across logistics optimisation, service levels, ROI, lead times, procurement, operations and sales in a cross-functional team simulation.
- Reduced total costs by 10% and improved operational efficiency by 15% through KPI analysis, strategic planning and data-driven decision-making.

EDUCATION

MBA – Supply Chain Management | University of East London | 2024

BBA – Business Administration | Mewar University, India | 2020
